the European Union

A poster for the "KÖPRÜÜSSÜ SIMÜLATÖRÜ" (Bridge Simulator) at the "DENİZDE BİLİM" (Science at Sea) exhibition. The poster features a large ship's wheel at the top left and a detailed illustration of a submarine's interior with a periscope and control panels at the bottom right. A circular logo for "DENİZDE BİLİM" is in the top right corner. The text on the poster includes the title, date (27 Eylül 2024), time (09:00 - 18:00), and a descriptive paragraph about the simulator.

The poster features a circular logo at the top left with the text 'MAVİDE BİLİM' around the perimeter and a central flask icon. Below the logo, the word 'MAVİDE BİLİM' is written in a blue box. The main title 'ARAŞTIRMA VE DALIS ARAÇLARI' is displayed prominently in large, bold, green and yellow letters. The background is light blue with several black silhouettes of divers of different types swimming upwards towards a vertical white line representing a wall or column. At the bottom, there is a QR code, the European Union flag, and logos for TÜBİTAK and the Ministry of National Education. The website 'www.e-sistemciblue.eu' is also mentioned.

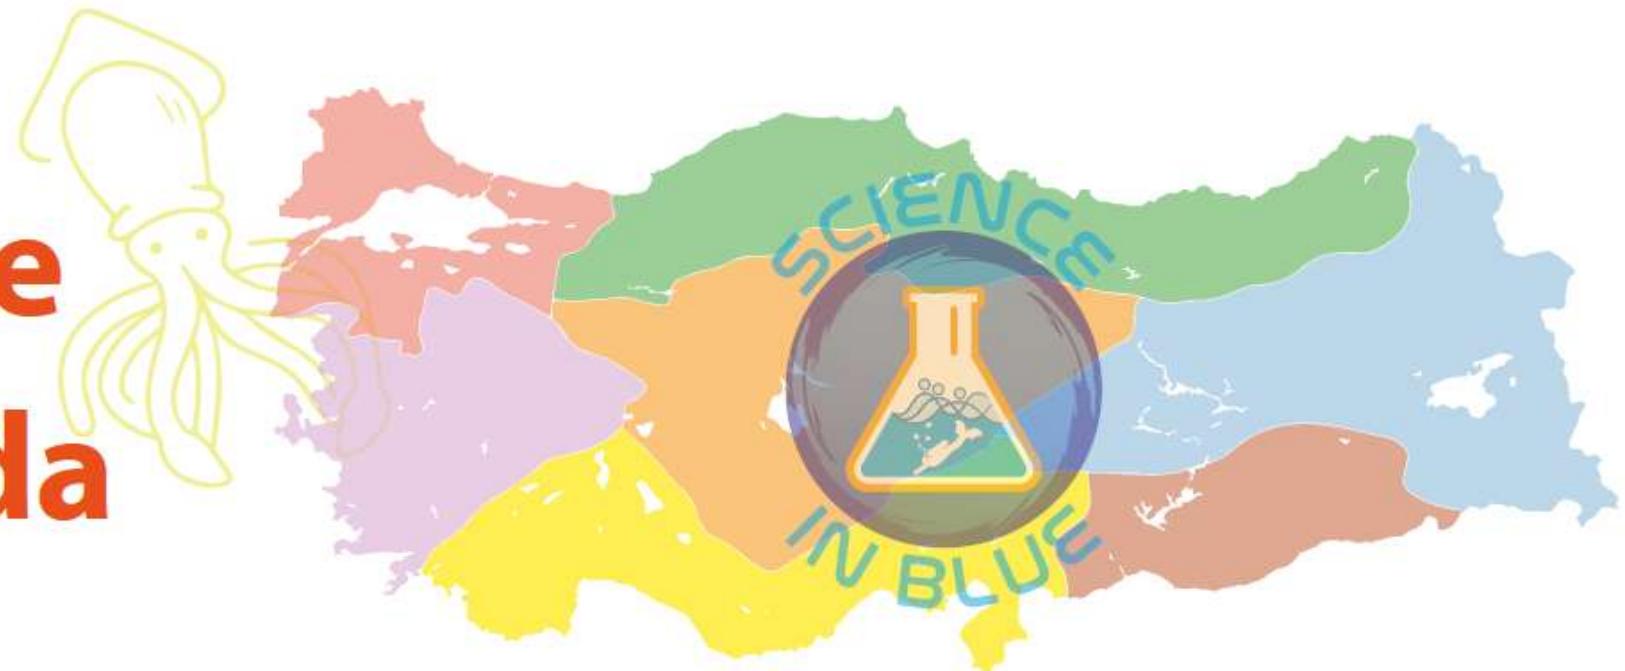

The background of the poster features an underwater environment with a scuba diver in the foreground, surrounded by various tropical fish and coral reefs.

The poster features a large yellow circular logo at the top left with the text 'TURKISH ACADEMY OF SCIENCES' and 'MAVİDE BİLİM'. Below the logo is the title 'ROBOTLAR SENİ ÇAĞIRIYOR!' in large, bold, black letters. Underneath the title, it says '28 Eylül Cumartesi 13:30 - 18:00'. The background of the poster is a blue-toned photograph of an underwater environment with sunlight filtering through the water. In the center, there is a detailed illustration of a blue underwater robot with a circular sensor array on top and a track-based body.

MAVİ EKONOMİ

Mavi Ekonomi, denizler için iyi olan, denizlere dayanan ekonomik faaliyetleri ifade eder.

Ülkemiz için hem ekonomik hem çevre açısından acil önem verilmesi gereken bir konudur.
Ekonomiye ve çevre korumaya katkısı vazgeçilmez fırsatlar sunar.

Mavi Ekonomi, yıllar içinde hızla gelişerek dünyada 5,4 milyon istihdam yarattı.
Yılda yaklaşık 500 milyar Euro brüt katma değer üretti.

Sektör, esas olarak sualtı bilimsel faaliyetlerindeki büyük artışla kendinden söz ettiriyor.
“Mavi Teknoloji ve Bilimsel Dalış” başlıklarında gelecek vaat eden yeni alt pazarlarını yaratıyor.
Büyüme ve istihdam fırsatları sunan bilimsel dalış sektörü, Mavi Ekonomi’yi her açıdan pozitif etkiliyor.

Bilimsel dalgıçlar, saha çalışmalarında sualtı görevlerini yerine getirmek için
dalış ekipmanı ve tekniklerini kullanan nitelikli bilim insanlarıdır.

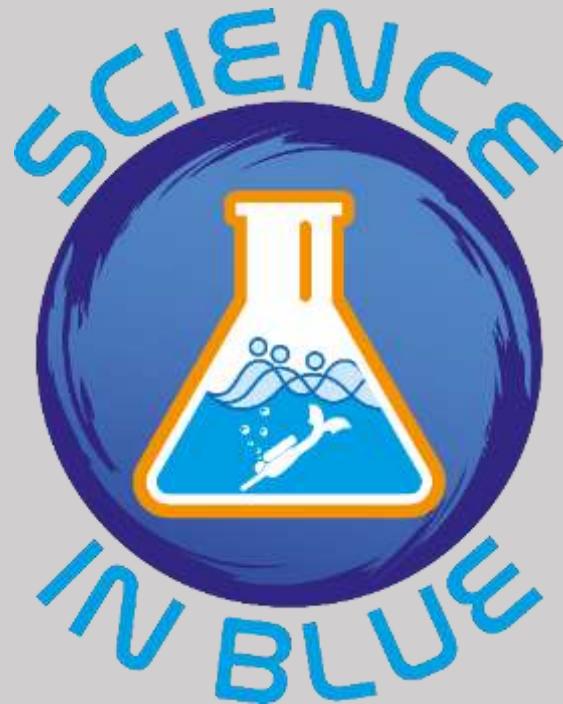

Robotik alanındaki son gelişmeler sayesinde bilim insanları sualtı araştırmalarında
uzaktan kumandalı, otonom ve yarı otonom robotlar kullanıyor.

MAVİDE BİLİM PROJESİ

HER AŞAMASINDA MAVİ EKONOMİ’YE KATKI SAĞLAYACAK ALTYAPIYI OLUŞTURMAYA ÇALIŞACAK.

CITIZEN SCIENCE IN THE SEAS

Citizen Science

- Citizen science is the participation of non-academic individuals in the scientific research process, either through community-focused or global research initiatives (citizenscience.org).
- Citizens often collaborate with experts or scientific institutions to conduct scientific studies. They contribute valuable support to science by assisting in the collection, analysis, or identification of research data.

Birdwatching

What is Birdwatching Tourism?

Birdwatching tourism refers to the observation, photography, and identification of wild birds in destinations known as "bird paradises," followed by the use of tourism-related goods and services available in these areas.

Uygulamalar

The image displays three screenshots of mobile applications used for bird identification:

- Left Screenshot:** A detailed field guide for the Baltimore Oriole. It shows four illustrations of the bird at different stages: Immature male, Adult male, Female, and Juvenile. Labels point to specific features: "black hood", "white wing bar", "orange shoulder patches", "orange rump", "bright orange breast and belly", "white-edged feathers", and "black tail with orange patches". A note at the bottom states: "Bullock's Oriole lacks black head; female Baltimore Oriole has less gray on upperparts and more orange on breast than female Bullock's." Buttons at the bottom include "General (5)", "Range", "Photos (11)", "Sounds", "Similar", and "Journal".
- Middle Screenshot:** A search results screen showing 944 matches. The top bar includes "Search", "Reset", and "How to Search". Below is a list of bird species with small images:
 - American C (Corvus brachyrhynchos)
 - Crows and Jays
 - American C (Cinclus mexicanus)
 - Dipper (Cinclus cinclus)
 - American G (Spinus tristis)
 - Fringilline & Finches (Fringillidae)
 - American P (Anthus rubato)
 - Wagtails and Chiffchaffs
 - American R (Turdus migratorius)
 - Thrushes (Turdidae)
 - Ash-throated Flycatcher (Myiarchus cinereiceps)
 - Tyrant FlycatchersOn the right, there is a sidebar for "Birds Around Me" with filters for "Location", "Shape", "Size", "Habitat", "Color Prominent", "Color Primary", "Color Secondary", "Backyard Feeder", "Family", "Order", "Conservation Status", and seasonal distribution: "Summer" (orange), "Year-round" (green), and "Winter" (purple). Buttons at the bottom include "General (5)", "Range", "Photos (11)", "Sounds", "Similar", and "Journal".
- Right Screenshot:** A detailed anatomical diagram of a bird's skeleton, showing the skull, brain, and internal structures.

DENİZLERDE YURTTAŞ BİLİM

YurttAŞ Bilimin On İlkesi

1. YurttAŞ bilimi projeleri, yurttAŞları yeni bilgi ve anlayış üreten bilimsel uğraşa etkin bir biçimde dahil eder.
2. YurttAŞ bilimi projeleri hakiki bir bilimsel çıktı içerir.
3. Hem profesyonel bilim insanları hem de yurttAŞ bilimcileri katılımlarının yararını görürler.
4. YurttAŞ bilimciler, eğer isterlerse, bilimsel sürecin birden fazla aşamasında katkıda bulunabilirler. Bu, araştırma sorusunu geliştirme, araştırma yöntemini tasarlama, veri toplama ve analiz etme ve sonuçları iletmeyi içerir.
5. **YurttAŞ bilimciler projeden geri bildirim alırlar.**

DENİZLERDE YURTTAŞ BİLİM

YurttAŞ Bilimin On İlkesi

6. YurttAŞ bilimi diğer herhangi bir araştırma yaklaşımı gibi sınırları ve önyargıları dikkate alınan ve kontrol edilen bir araştırma yaklaşımı olarak değerlendirilir. Ancak geleneksel araştırma yaklaşımlarının aksine, yurttAŞ bilimi daha fazla halkın katılımı ve bilimin demokratikleşmesi için olanaklar sunar.
7. YurttAŞ bilimi projesi verisi ve meta-verisi kamusal olarak elde edilebilir hale getirilir ve mümkünse, sonuçlar **açık erişim formatında** yayınlanır. Veri paylaşımı, güvenlik veya gizlilik kaygıları engellemiyorsa, proje sırasında veya sonrasında olabilir.
8. YurttAŞ bilimciler proje sonuçlarında ve yayınlarında tanınır ve takdir edilirler.
9. YurttAŞ bilimi programları bilimsel çıktı, veri kalitesi, katılımcı deneyimi ve daha geniş toplumsal veya politika etkileri açılarından değerlendirilirler.
10. YurttAŞ bilimi projelerinin liderleri, herhangi bir faaliyetin, telif hakkı, fikri mülkiyet hakkı, veri paylaşım anlaşmaları, gizlilik, atfetme ve çevresel etki gibi yasal ve etik meselelerini dikkate alır.
